Mission
Providing hope, community, support, and resources for people with Parkinson’s and their loved ones.

Vision
A Parkinson’s community inspired to live life with – and beyond – Parkinson disease.
The 2020 –2021 fiscal year continued to be a unique year for WPA, as it was for the world. Throughout the Covid-19 Pandemic we kept our community members engaged and have been inspired by the resiliency of the Parkinson’s community as we continue to live life to the fullest – no matter what life brings. Your works, and your words, keep us determined to move forward.

During the toughest of times our direct services changed, but we pushed forward with new ways to meet our community’s needs through virtual services including:

- Virtual Movement & Music: Parkinson’s exercise classes on Facebook several times a week
- “Ask the Expert” videos and Wednesday Webinars, providing you with wisdom from our state’s top Parkinson’s health providers.
- Our start to in-person programs again with our Symposium, now with an in-person and virtual option.

We are proud of the services we were able to provide throughout the pandemic and are thrilled to begin to serve our community again in-person. Thank you for your support during these unprecedented times and always.

Gary Garland
Executive Director

Mission in Action:
Hope, Community, Support, Resources

We are actively meeting our mission providing hope, community, support, and resources for people with Parkinson’s and their loved ones.

Hope & Community

SUPPORT GROUPS: We work with over 200 support and exercise groups for people with PD and their caregivers across Wisconsin. Groups provide much needed peer-to-peer support, and may include fitness sessions and classes, discussion groups, educational speakers, updates on medical research, and strategies from experts for living healthier, fuller lives.

CAREGIVER SUPPORT: Caregivers often put the needs of the person they're caring for ahead of their own. WPA has resources for caregivers and is actively creating new opportunities for support.

LEARN & PARTICIPATE: Be involved at wiparkinson.org. Find information on support group meetings in your area, educational programs, our weekly enewsletter, and Wisconsin Parkinson Magazine, our triannual magazine.
PUBLIC AWARENESS AND EDUCATION: We work to educate people with PD and the public through community-based programs and health fairs. These workshops include half-day events around the state, as well as our annual full day symposium. We also have a role in advocacy through our involvement with the Unified Parkinson’s Advocacy Council.

INFORMATION AND REFERRAL: WPA supplies important information about PD and provides referrals to health professionals of all kinds, assisted living communities, support groups and more.

MEDICAL ADVISORY COMMITTEE: Consisting of doctors from various healthcare locations around Wisconsin, this committee provides medical oversight and advises on topics related to clinical care of people with PD.

VOLUNTEER: Individuals, family members and medical professionals all make great volunteers. We need people who can facilitate support groups, share their knowledge at conferences, workshops and support groups, coordinate fundraising events, and provide support and guidance for those who are newly diagnosed.
The financial information on this page is derived from Wisconsin Parkinson Association’s audited August 31, 2021 financial statements, which contain an unqualified audit opinion by an independent accounting firm.

The complete, audited financial statements can be obtained online at wiparkinson.org.
Exercise and support groups met over 2,000 times and reached over 1,000 individuals and some transitioned to virtual meetings.

People reached through events held by community members as fundraisers for WPA.

1,920 Households attended WPA in-person and virtual educational programs.

1,200 Support group attendees where WPA staff shared resources.

330 People reached through events held by community members as fundraisers for WPA.

468 Households at the Virtual and in person PD Symposium who learned about safety issues, caregiving, exercises for people with PD, emerging treatments and more.

320 Individuals at health fairs and conferences where WPA presented, sponsored or exhibited.

810 Referrals in person and over the phone with information on home healthcare, doctors, insurance, medical equipment, check-in calls, and more.

10,000+ Connections with people living with PD, their friends and family, and the community.

7 Neurologists on the Medical Advisory Committee from around Wisconsin.

4,840 People who read *Wisconsin Parkinson Magazine* each quarter.

360 Connections in the senior care industry, through networking and industry groups.

640 Connections in the senior care industry, through networking and industry groups.
